Perfekt verzahnt – die Kettentriebe von INA

Immer mehr Kraftfahrzeuge werden in der Erstausrüstung mit Kettentrieb ausgestattet. Auch für die als wartungsarm geltenden Motoren stellen die auftretenden Schwingungen und Kräfte sowie die Verwendung von ungeeignetem Öl eine extreme Belastung dar. Der Verschleiß von Kettentriebkomponenten fällt bei der Inspektion jedoch oft nicht auf, was in einem Motorschaden enden kann. Anzeichen wie ein rasselnder Motor sollten daher akribisch begutachtet werden.

Unter der Marke INA vertreibt Schaeffler ein umfangreiches und technisch ausgefeiltes Ersatzteilprogramm mit intelligenten KIT-Lösungen sowie Einzelkomponenten, die jedem Reparaturfall gerecht werden. Da alle Bauteile perfekt aufeinander abgestimmt sind und ein reibungsloses Zusammenspiel gewährleisten, sollte bei Verschleiß stets das komplette System ausgetauscht werden.

Die Vorteile auf einen Blick:

- Alles aus einer Hand vom Erstausrüster
- Einzelkomponenten & komplette Reparatur-KITs
- Inkl. aller notwendigen Befestigungs- und Dichtungsmaterialien
- Spezialwerkzeuge für spezifische Anwendungen

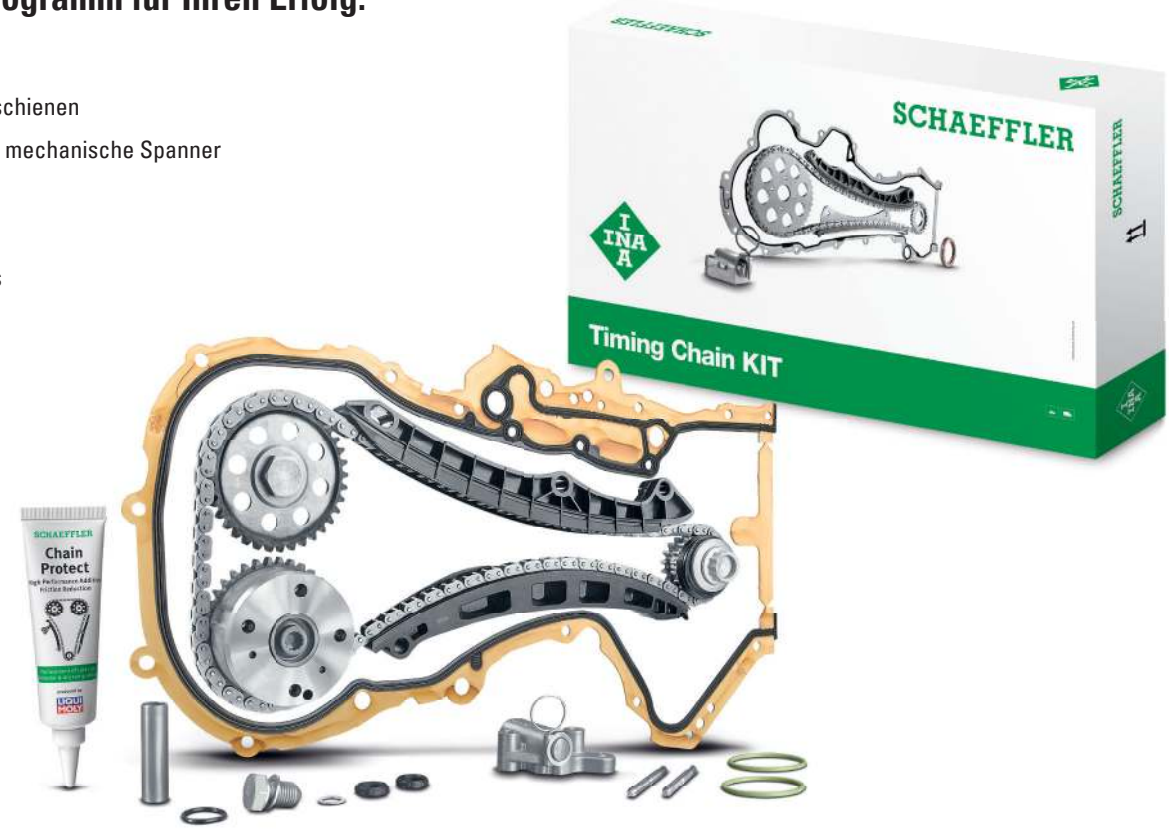

Besonders komfortabel und effizient prüfen, reparieren und montieren Sie mit den INA Spezialwerkzeugen für Steuerketten, die für die Reparatur aller wichtigen Motoren der Volkswagen Gruppe sowie von Opel/ Vauxhall entwickelt wurden.

Das volle Programm für Ihren Erfolg:

- Ketten
- Spann- und Gleitschienen
- Hydraulische und mechanische Spanner
- Kettenräder
- Dichtungen
- Steuerketten KITs

Perfectly Linked - Chain Drives from INA

Increasing numbers of vehicles are being equipped with chain drives as original equipment. The vibrations and forces that occur, as well as the use of unsuitable oil, place extreme stresses on engines that are considered to be low-maintenance. However, the wear on chain drive components often fails to be spotted during inspections, which can result in engine damage. Indicators such as a rattling engine should therefore be inspected thoroughly.

Under the INA brand, Schaeffler provides an extensive and technically sophisticated range of spare parts with intelligent KIT solutions, as well as individual components for every repair need. As all components are designed to work perfectly in harmony with one another, the entire system should always be replaced in the event of wear.

The advantages at a glance:

- Everything you need from a single source - the OE manufacturer
- Single Components & Complete Repair KITs
- Inc. all necessary installation components and sealing materials
- Special tools for specific applications

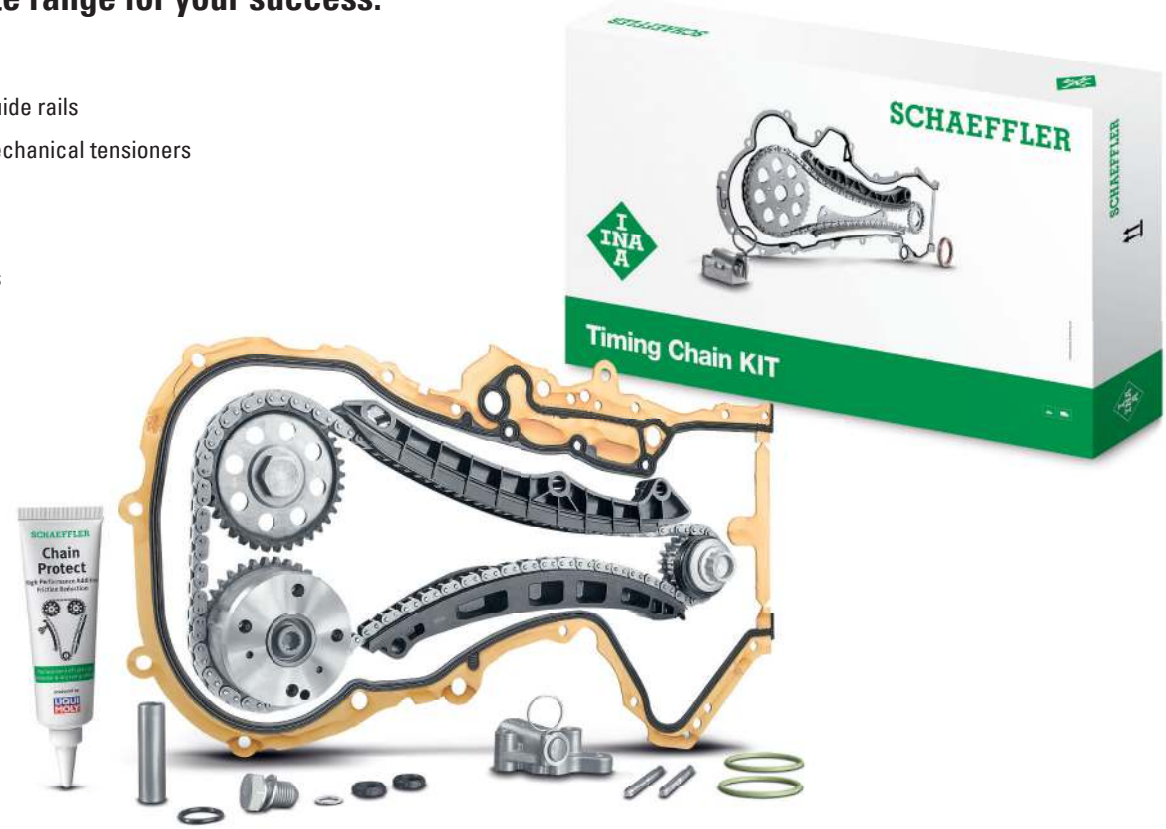

INA timing chain special tools are designed to make it easier and more efficient to check, repair and install components on Volkswagen Group, Opel and Vauxhall engines.

The complete range for your success:

- Chains
- Tensioning and guide rails
- Hydraulic and mechanical tensioners
- Sprocket wheels
- Seals
- Timing chain KITs

L'intéraction parfaite: l'entraînement par chaîne INA.

De plus en plus de véhicules automobiles sont équipés en première monte d'un entraînement par chaîne. Même pour les moteurs nécessitant peu d'entretien, les vibrations et les forces générées, ainsi que l'utilisation d'huile inappropriée représentent une contrainte extrême. Cependant l'usure des composants de l'entraînement par chaîne n'est souvent pas détectée lors d'un entretien, ce qui peut causer des dommages moteur. Les signes, tel qu'un moteur bruyant, nécéssitent donc la conduite d'un diagnostic approfondie.

Avec la marque INA, Schaeffler commercialise une gamme de pièces de rechange complète et à la pointe de la technologie aussi bien sous forme de kits que de composants au détail. Ristampa, anche per estratto, soltanto con la nostra autorizzazione. Sono esclusi diritti al risarcimento sulla base di dati contenuti nel presente catalogo. Un incastro perfetto – le trasmissioni a catena INA.

In termini di primo impianto, i veicoli vengono sempre più equipaggiati con un sistema di comando a catena. Anche per i motori considerati a bassa manutenzione, le vibrazioni e le forze che si producono, così come l'utilizzo di oli inadatti, rappresentano una fonte di stress estrema. Tuttavia, l'usura dei componenti delle trasmissioni a catena, che potrebbe portare al danneggiamento del motore, nel corso delle ispezioni non vengono riscontrate frequentemente. Eventuali sintomi come un eccessivo rumore interno del motore devono pertanto essere scrupolosamente analizzati.

Con il marchio INA, Schaeffler propone una gamma prodotti esaustiva e tecnicamente sofisticata che comprende sia soluzioni intelligenti in kit che singoli componenti, in grado di far fronte a qualunque tipo di riparazione. Poiché tutti i componenti sono perfettamente combinati tra loro e assicurano un'interazione priva di attrito, in caso di usura è sempre meglio sostituire l'intero gruppo.

Vantaggi dei prodotti in breve:

- Tutto da un unico fornitore del primo impianto
- Componenti singoli e kit di riparazione completi
- Comprende tutti i materiali di fissaggio e tenuta
- Attrezzi speciali per applicazioni specifiche

Con gli utensili speciali INA, specifici per trasmissione a catena, potrete procedere a controlli, riparazioni e montaggi in modo particolarmente rapido ed efficiente, perché sono stati realizzati appositamente per la riparazione dei principali motori del Gruppo VW e Opel/Vauxhall.

Il programma completo per il vostro successo:

- Catene
- Pattini tenditori e di guida
- Tenditori idraulici e meccanici
- Ingranaggi delle catene

Engranaje de precisión: el accionamiento de cadena de INA.

Cada vez más vehículos están equipados con accionamiento de cadena como equipamiento original. Las vibraciones y las fuerzas que se producen, así como el uso de aceite inadecuado, suponen una carga extrema para los motores considerados de bajo mantenimiento. Sin embargo, el desgaste de los componentes del accionamiento de cadena no suele encontrarse durante la inspección, lo que suele derivar en daño del motor. Por tanto, los signos, como sonidos extraños del motor, deben inspeccionarse profundamente.

Bajo la marca INA, Schaeffler distribuye un programa de recambios completo y de tecnología sofisticada con soluciones de KIT inteligentes y componentes individuales adecuados para cualquier necesidad de reparación. Puesto que todos los componentes están perfectamente ajustados entre sí y garantizan un funcionamiento conjunto óptimo, en caso de desgaste deberá sustituirse el sistema completo.

Resumen de ventajas:

- Todo de una sola mano del fabricante del equipo original
- Componentes individuales y kits de reparación completos
- Se incluyen todos los materiales de sujeción y sellado necesarios
- Herramientas especiales para aplicaciones específicas

Las herramientas especiales de INA para cadenas de control, diseñadas para la reparación de todos los motores importantes del Grupo VW y de Opel/Vauxhall, son especialmente cómodas y eficientes para realizar comprobaciones, reparaciones y montajes.

El programa completo para su éxito:

- Cadena
- Raíles tensores y de deslizamiento
- Tensor hidráulico y mecánico
- Piñones
- Juntas
